1890.

WARRANT.

o N. R. Packard, an inhabitant of the town
of Corinna, County of Penobscot,
Greeting.

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Corinna qualified by law to vote in town affairs, to meet at the Town House in said town, on the 17th day of March A. D. 1890, at 9 o'clock in the forenoon, to act on the following articles, to wit:—

- 1st—To choose a Moderator to preside at said meeting.
- 2d—To choose a Clerk and all other necessary town officers for the year ensuing, as required by law.
- 3d—To see what sum of money the town will raise to defray town charges.
- 4th—To see what sum of money the town will raise for the support of schools.
- 5th—To see what sum of money the town will raise to pay on the town debt.
- 6th—To see what sum of money the town will raise for the support of a Free High School.
- 7th—To see if the town will accept the donation whereby on March 7th, 1890, it was voted by the Trustees of Corinna Union Academy that the sum of \$65 of the funds of said academy be given to the town of Corinna towards maintaining a Free High School in said town.

- 8th—To see what sum of money the town will raise to purchase school books.
- 9th—To see what sum of money the town will raise to repair schoolhouses.
- 10th—To see what sum of money the town will raise for J. Knowles Post for Memorial Day.
- 11th—To see what sum of money the town will raise to repair roads and bridges, and determine the manner in which the same shall be expended.
- 12th—To see what sum of money the town will raise to run road machine, and determine how it shall be expended.
- 13th—To see what sum of money the town will raise to rebuild the cemetery fence at the Center.
- 14th—To see if the town will instruct the Selectmen to enlarge the schoolhouse lot at Pleasant Vale, so called, and see what sum of money the town will raise for that purpose.
- 15th—To see if the town will vote to refund the money paid by L. H. Weymouth to Joseph Weymouth for land damages for the purpose of a highway.
- 16th—To see if the town will vote to sell the Abial Lancaster lot of land (lot 18, range 9,) if a purchaser can be found, and choose an agent to deed the same.
- 17th—To see if the town will vote to accept the list of Jurors as revised by the Selectmen, Treasurer and Town Clerk.

The Selectmen give notice that they shall be in session for the purpose of correcting the list of voters in said town, and hearing and deciding upon the application of persons claiming to have their names entered upon said list, at the Town House, at 8 o'clock in the forenoon, on the day of said meeting.

Given under our hands this 8th day of March A. D.

1890.

N. R. PACKARD,	} Selectmen	
J. S. BURRILL,		of
J. H. SHEPHERD,		Corinna.

A true copy, attest:

N. R. PACKARD,

An Inhabitant of the Town of Corinna.

Report of Supervisor of Schools.

TO THE INHABITANTS OF THE TOWN OF CORINNA :

The following statement of statistics, progress, and other data as compiled from the town records, school registers and other sources pertinent to the schools of this town are herewith respectfully submitted :

Amount raised and appropriated for the		
support of the common schools.....	\$1300	00
Balance unexpended from last year.....	278	50
Amount raised for repairing school build- ings	200	00
Received from State school fund and mill tax	711	76
Due from Dexter on account of tuition (North ridge).....	65	00
Due from Newport on account of tuition (Brooks school) and from other sources	35	00
In treasurer's hands on account of what was formerly No. 11.....	13	75
Received from A. H. Emery for odds and ends of paint on hand.....	1	00
		<hr/>
		\$2605 01
Amount expended the past year	\$2251	35
" unexpended	353	66
		<hr/>
		\$2605 01
Amount raised by the town toward the support of a Free High school.....	\$ 150	00
Received from the treasurer of Union Academy for support of F. H. school	50	00
From the state for support of F. H. school	90	63
		<hr/>
		\$ 290 63
Paid E. E. Colbath for teaching fall term	\$ 181	25
Unexpended	109	38
		<hr/>
		\$ 290 63
Unexpended common school fund.....	\$ 353	66
" High school fund.....	109	38
		<hr/>
		\$ 463 04

FREE HIGH SCHOOL.

At the March meeting in 1889 a sum of \$150 was voted for a Free High school, \$100 having been donated for the purpose by the trustees of Union Academy.

Our Free High school since its inception has been under the management of Mr. E. E. Colbath, of Exeter. He came to us highly recommended both as a disciplinarian and as an instructor. These testimonials, I am happy to state, have been found eminently true. Under Mr. Colbath's management our High school has attained a popularity that is encouraging. The students, parents and all interested in good thorough work find in this school their wishes fully realized. The fall term had an attendance of 48 students. The present term now in session has an attendance of about 60, which necessitates the aid of an assistant teacher. I know of no way more economical by which our children may receive that amount of education required for the business of the world than the plan by which the F. H. School of this State affords. Yet, unless the town is able to do so I shall not advocate raising money for the support of a F. H. School.

It is, of course, understood that the Free High School Act makes the State bear one-half the expense of the teachers' wages; for instance, for our fall term of 1889, two and one-half months, the teacher received from the money raised by the town the sum of..... \$181 25 from which sum he paid his board. Union Academy paid the town as its part of this sum...\$50 00 The State paid its part of this sum..... 90 62

140 63

Making the actual cost for teachers to the town....\$ 40 63 or a sum of \$4.063 per week for a High School from which reckoning board at \$3.00, the whole amount paid for ten weeks for the work done would amount to \$10.63, or \$1.063 per week. I am not giving these figures for statistics of the school report, or for argument for raising money for a high school, but as a statement of the facts as they operate under the F. H. School Act.

BROOKS SCHOOL.

Summer term, 8 weeks. Wages \$5; board, \$1.50. Whole number pupils in attendance, 12; average number, 10. Was taught by Miss Blanche Grant, who did good work, and the pupils made good progress.

Winter term, 10 weeks. Wages, \$20 per month; board, \$1.50 per week. Whole number, 14; average number, 12. Was taught by Mr. Fred Burrill. This was his first term, but he worked hard and at the close the pupils showed good improvement.

BOND SCHOOL.

Summer term, 8 weeks. Wages, \$4.50; board, \$1.25. Whole number, 10; average number, 7. Was taught by Miss Hattie Morton.

Fall term, 9 weeks. Wages, \$4.00; board, \$1.25. Whole number, 19; average number, 13. Was taught by Miss Morton. Both terms were conducted with zeal and industry, and closed with the usual good amount of work done.

BASSETT SCHOOL.

Summer term, 9 weeks. Wages, \$4.70; board, \$1.25. Number of pupils, 13; average number, 11. Was taught by Miss Lora Bemis, an experienced and successful teacher. The school was profitable.

The fall term was taught by Mr. Ora Bemis, 8 weeks. Wages, \$18 per month; board, \$1.50 per week. Whole number, 14; average number, 11. At the examination the pupils showed improvement. The pupils in this district most of them attend other schools when their own is not in session.

NORTH RIDGE.

Summer term, 7 weeks. Wages, \$4.50 per week; board, \$1.50. Whole number, 15; average number, 10. Was taught by Miss Mamie Stewatt.

Fall term, 10 weeks. Wages, \$5.00; board, \$1.50. Whole number, 19; average number, 17. Was taught by Miss Jeanette Fernald. The school was in all respects a success.

Winter term, 9 weeks. Wages, \$24; board, \$1.50. Whole number, 18; average number, 17. Was taught by Mr. Leroy Folsom. Mr. Folsom kept an excellent school. The pupils were industrious, active and obedient.

CENTER.

Summer term, 7 weeks. Wages, \$6.00; board, \$1.50. Whole number, 23; average number, 22. Was under the instruction of Miss Carrie P. Emery, who conducted the school with her usual good success. Fall term of 9 weeks conducted by the same teacher at the same wages.

Winter term, 9 weeks. Wages, \$8.00; board, \$2.00. Whole number, 29; average number, 26. Was taught by Miss Jeanette Fernald, a teacher who has taught several terms in town, and whose success in the school room has been established for some time as a most excellent teacher.

PUFFER.

Summer term, 7 weeks. Wages, \$4.50; board, \$1.00. Whole number, 8; average number, 7. Was taught by Miss Hallie Rollins.

Fall term, 7 weeks. Wages, \$4.30; board, \$1.50. Whole number, 10; average number, 8. Was taught by Miss Mina Berry. At the examination of both the summer and the fall terms the pupils appeared to have made improvement. During the summer, the latter part of the term, there was some extremely hot weather. This made it hard work to interest the pupils. Miss Berry, the teacher of the fall term of school, did good work and showed much energy in the school room.

VILLAGE SCHOOL.

Both the Grammar and the Primary schools commenced on the same day and continued for awhile, when it was deemed expedient to consolidate them under one teacher. Miss Susie Brackett, of Maine Central Institute, was placed in charge of the Grammar school, where she soon proved herself a capable and efficient teacher. By reason of its being imperative for her to discontinue teaching in the Grammar school, having made a previous agreement abroad, her school closed after a session of one week. Miss Rosa Winslow taught the consolidated school. Miss Winslow is a graduate from the Western State Normal School. Whole number, 43; average, 34. Wages, \$7.00 per week; board, \$2.00. The teacher worked hard for the school. The pupils, I believe, ought to have tried a bit harder, but I have frequently noticed that however hard the work becomes to a teacher, the pupils are not, as a rule, apt to consider it of much account.

A fall term of Primary school, ten weeks. Wages, \$6.00; board, \$2.00. Whole number, 38; average, 36. Was taught by Miss Alice M. Lander, a well known and successful teacher. Miss Lander taught, as usual, a successful term of school and the pupils learned rapidly.

The winter term, eight weeks. Whole number, 45; average, 39. Wages, \$64 per month; board, \$3.00 per week. Was taught by Mr. E. E. Colbath, whose reputation as a teacher in this town is well known. Mr. Colbath and

many of the pupils and parents had la grippe. It was, however, so far as pupils and teacher could make it, an excellent school.

TOWN FARM.

Spring term, Miss Nora E. Harmon, teacher. 10 weeks. Whole number, 20; average, 18. Wages, \$5.25; board, \$1.25 per week. Miss Harmon has taught many terms of school in town. She taught this term with her usual good success.

Winter term, 10 weeks. Whole number, 22; average, 19. Wages, \$5.50; board, \$1.50. Taught by Miss Elzora Josselyn. Miss Josselyn did good work here and maintained her former reputation as an instructor of the youth.

Fall term, 7 weeks. Wages, \$5.00; \$1.50 per week. Whole number, 25; average, 22. Miss Winslow gained the good will and co-operation of all concerned and taught a school highly satisfactory to both parents and pupils.

MOWER.

Spring term, 9 weeks. Wages, \$5.25; board, \$1.25. Whole number, 18; average, 16. Taught by Miss Elzora Josselyn, who kept up an interest throughout the term. It was in all respects a successful school.

Fall term, 7 weeks. Wages, \$5.40; board, \$1.25. Whole number, 7; average, 6. Was under the instruction of the same teacher. The same good results followed as were apparent in the former term.

Winter term, 8 weeks. Ora Bemis, teacher. Board, \$1.50; wages, \$20.00 per month. This is a school in which the parents take a lively and commendable interest. This is a factor that I wish might be in each school.

MORSE'S CORNER.

Summer term, 9 weeks. Wages, \$5.25; board, \$1.50. Whole number, 22; average, 19. Was taught by Miss Jeanette Fernald. A good school and marked improvement.

Winter term, 10 weeks. Wages, \$25.00 per month; board, \$2.00 per week. Mr. P. L. Pease, teacher. Mr. Pease worked industriously and showed an interest in his work. The pupils made good improvement and passed an examination worthy of themselves and teacher. It might be well to add right here that pupils residing in the Morse Corner neighborhood are located so as to be convened at the Bond school as well as at their own school. Pupils

residing in the Bond neighborhood may also attend this school, most of them when it is in session. During the fall many of the older pupils attended the Free High School.

GREENBUSH.

This school, during the summer, 9 weeks. Wages, \$2.50 per week, was taught by Miss Cora Young. Miss Young did good work. The school was very small, three or four only in attendance. An arrangement was made with the supervisor of Exeter admitting these scholars to a school in that town not far from the Greenbush neighborhood.

DEANVILLE.

Summer term, 9 weeks. Wages, \$4.50; board, \$1.50 per week. Whole number, 22; average, 19. Taught by Miss Myrtie A. Smith. This school, as to attendance, interest and progress, ranked well during the summer term.

Winter term, 11 weeks. Wages, \$21.00 per month; board, \$1.50 per week. Whole number, 18; average, 17. Taught by Mr. Herbert Crowell. Mr. Crowell taught a school that was in all respects highly satisfactory to all concerned. It was a school that reflected credit on the teacher, parents and pupils.

SOUTHARDS' MILLS.

Summer term, 8 weeks. Wages, \$4.50; board, \$1.25 per week. Whole number, 14; average, 13. Taught by Miss Fannie Lancaster, who had had charge of the school before. Miss Lancaster has an easy and attractive way of keeping the pupils all at work, and this is what makes them show such improvement at the examinations.

Winter term, 8 weeks. Whole number, 17; average, 15. Wages, \$4.50; board, \$1.25 per week. Taught by Miss Fannie Lancaster, who maintained her former good success in this school.

TO THE TEACHERS:—

The importance of your mission is incalculable. Your duty as an instructor of the youth is to "use your best endeavors to impress upon the minds of the children and youth committed to your care and instruction, the principles of morality and justice, and a sacred regard for truth, love of country, humanity, and a universal benevolence; sobriety, industry and frugality; charity, moderation and temperance; and all other virtues that ornament society, and to lead those under your care, as their ages and char-

acters admit, into a particular understanding of the tendency of such virtues, to preserve and perfect good government, secure the blessings of liberty, and promote their future happiness; and the tendency of the opposite vices to slavery, degradation and ruin." Following out the above duties as required by Statute, the teacher becomes an important factor for the promotion of good government. I would recommend to you that you refer frequently to that part of the Maine Statutes in which the duties of the teacher are given, then investigate your own experience in order to make your work the more beneficial to those committed to your care. Be vigilant at doing your work thoroughly and practically, and it will go far toward firmly establishing our schools in Corinna on a sound and practical basis.

TO THE PARENTS:—

The influence of a parent over the child is such that the success of a teacher frequently depends upon the will of one or more persons who patronize the school. The old, old story that school friction usually starts at home is as true as it is ancient. I believe, however, that this counteracting influence, once a factor for working evil to our schools, is almost absolutely an affair of the past. So far as our town is concerned, the old-fashioned habit of finding fault with the schools is now confined to two or three men of a former generation, whose interest in schools and influence with the public have long since floated away to the dim mists of oblivion. The schools for the past year have, I believe, on the whole shown a gain in improvement that is due in a great measure to the parents who have united with the scholars and supervisor at making them profitable. I need not add that in yielding the office of supervisor of schools, I have many reasons to feel thankful to you for what you have done in aiding me in the work of making our schools what they have been. If any duty has been neglected by me during the past year in which the interests of a school may have suffered, you may rest assured that it has been an error that I would gladly and promptly retrieve. Let your efforts be as effective at aiding my successor in doing the school work as they have been for me. As I suggested in my report last year, if we differ in other questions let us unite in this one question of educating the youth and thus confer a blessing on the rising generation on which in our declining years we may look back with feelings of satisfaction.

REPORT OF THE SCHOOL AGENT.

The duty of a school agent as defined in the Statute is: "To return to the municipal officers prior to the expiration of his term of service, an account of his official expenditures, with the necessary vouchers." In accordance with the law, I have itemized, or caused to be itemized, every item of expense entailed on account of school purposes, examined and approved the same, and they have been deposited with the municipal officers of Corinna. These vouchers are now on file in the Selectmen's office, and orders for the same have been drawn on the town treasurer for such amounts as each itemized voucher indicates. The orders thus drawn have been recorded by the Selectmen and the amount of each order taken by itself has been printed in the report of the Selectmen. The amount of all these orders is \$2251.85, which is the actual sum expended for teachers' salaries, for fuel, for school apparatus and for repairs. Of course a portion of the above sum thus drawn for school purposes was for bills for wood and other items for last year, these not having been presented for approval until after the Selectmen had struck a balance, one year ago, showing the assets and liabilities of the town. As the amount of each itemized bill or voucher has been printed in the Selectmen's report exactly as the order on the treasurer was drawn and paid, I do not deem it consistent or expedient to reproduce it in the agent's report. The form used for filling the itemized voucher by me reads as follows:

Town of Corinna in account with John Smith, for school purposes.		Dr.
To 3 cords of Maple wood, (old growth) fitted for stove and stored		
in the wood shed, at \$3.75,	- - - -	\$7.50
Received payment,		JOHN SMITH.
(Dated and approved on the back.)		

This itemized voucher Mr. Smith takes to the Selectmen who examine the items, see that it is receipted and approved, then draw an order on the town treasurer who receives it and pays Mr. Smith \$7.50. The Selectmen to whom Mr. Smith has given the itemized voucher, file the voucher. When the time for settling up the town business arrives, those vouchers thus deposited are all taken down from the file by the Selectmen and compared one by one with the orders turned back to them by the town treasurer. These orders, as stated before, are recorded in a book kept for this purpose, then the Selectmen draw or write out a town report from these and vouchers and orders from the respective departments that make up the business of the town. This year our municipal officers have made a copy of each order for the printer and it is published in the body of their report for the inhabitants to see, that they may understand for what purpose the school money has been used. This detailing of the school account so extended leaves for me the sole duty of giving a history of where we have operated, what we have done in the way of repairs, utensils, fuel and apparatus, and should my written explanation fall short of the wishes of any tax payer, I shall be glad to recite the vouchers either before, at the time, or after the annual March

meeting which will occur on the 17th inst. On the other hand should my written-out account of my agent's report appear too lengthy and detailed, I shall deem it a favor to be reminded of it.

At our last year's meeting a sum of \$200 was voted to be used at repairing such of the fourteen school houses and sheds as needed it. While this sum, or twice this sum, might make quite a show if used in repairing buildings about our homes, yet, when it is to be applied to more than twenty—yes, twenty-five—school buildings, many of which needed extensive and expensive outlay, and indeed, none but needed something, it is easy to understand that the amount is not remarkably large nor much beyond the minimum sum that could be used to keep so many houses from depreciating in value. For instance, the houses, several of them needed to be shingled forthwith, notably the Bassett, Deanville and Puffer, and the village school shed, which is as large as a small school house. Over \$60 was paid for shingles. Then the houses were suffering for paint, some of them now. The town farm school house, Puffer, North Ridge, Mower and Bassett need painting right away. The Deanville house inside should be ceiled overhead; the seats made to face the opposite way, and, as this house is not underpinned, short cedar posts might be set under to rest on the ledge and then board down from base of school house to the ground. This would save the expense of banking the house every fall and removing the same in the spring. We found it necessary to place gutters and conductors on the east side of the village school house. The water from the roof had so washed out the gravel at the base that it was absolutely imperative to put up a gutter and conductor. The building now having had a thorough repairing and three coats of paint, also the wood shed shingled, roof painted, and by means of jack screws placed on stone bearings, is outside in good order. The seats inside, however, are of a pattern and in a condition to worry the eye to look at. I cannot conceive what image of economy or utility could have been displayed before the mind of him who designed those benches and planned those two school rooms for our children to attend school in, in this enlightened age.

The Center school house and shed have but been painted and the building put in good repair. Much credit is due the inhabitants of that neighborhood for rendering pecuniary aid and labor at making the school room tidy and attractive. They united with the town and did quite an amount of labor in beautifying the inside. The teacher, Miss C. P. Emery, and Mrs. H. B. Rackliffe, Mrs. Fisher and others were active, and by their interest and superior taste at arranging and combining, the school room became a place where pupils would feel a pride at keeping everything in its place. The Brooks school house and shed were painted. This house is in excellent condition. At Morse's Corner the chimney was repaired, new stove pipes and fixings pertaining thereto put in, plastered where needed and out buildings repaired. This work was well and faithfully done by Mr. Smith, who lives near by. I would say a word as to the help employed in repairing. Mr. J. Libby shingled the Puffer school house for fifty cents per M. Mr. Shorey shingled one side of the Deanville house at the same rate. From all appearances, I believe

the work was, in both instances, well and thoroughly done. The men who worked for the town at repairing without exception labored with that zeal and interest that convinces me that our townsmen have a commendable pride in doing their work well when engaged at bettering the chances for the youth to obtain an education.

I hope the town will make provision to continue the repairs until our school buildings shall all be in a good, sound condition. Do not forget that the little ones must not be obliged to pass their time in buildings uncomfortable in inclement weather. Hoping that this statement of facts may be sufficient to satisfy all in interest, I submit the same as my report for the school year ending March 1, 1890.

A. M. BURTON, Agent of Schools.

APPENDIX.

Before the adjournment of the last annual March meeting, on motion of Rev. J. P. Nelson, the following order in substance was passed and spread upon the town records:

"That the Supervisor of Schools shall make out an itemized statement of his account and have the same printed."

Obeying the above instructions, I have deduced and compiled from my journal the following abstract of items which, I doubt not, will fully meet the requirements as set forth in the record.

Eighty-one (81) visits to schools at \$.70.....	\$56 70
Use of teams, 59 trips, at \$.25.....	14 75
Writing, posting, or causing to be posted, 37 school notices, at \$.12½.....	4 63
Expense to Pittsfield and Detroit on account of Grammar school teacher.....	2 00
Examining and certifying teachers.....	5 75
Making inventory of pupils and enrolling all pupils of legal age to draw school money.....	3 75
Making statistical returns to State Superintendent	2 25
Examining and approving 37 bills for teachers' services.....	1 00
Compiling school report 3 days at \$1.25.....	3 75
One day with selectmen preparing copy for printer	1 25
Answering letters to applicants for schools.....	50
Three trips to Dexter on account of schools, \$.75..	2 25
Making up school return (voucher).....	42
Arranging classes, High School, fall and spring, at \$.50.....	1 00
	<hr/>
	\$100 00

A. M. BURTON.
